### **Subject: European Directive RoHS 2002/95/EG**

To whom it may concern,

As suppliers of raw materials (not electrical or electronic equipment) Alcoa Europe declare that in the chemical composition of aluminium alloy products manufactured at our plants in Fusina, Italy and Kitts Green, UK, supplied to Copper and Brass Sales, P.O.Box 5116, Southfield, Michigan 48086-5116, USA, the concentration levels of lead, hexavalent chromium, mercury and cadmium do not exceed the limits set by the above mentioned directive.

In addition we declare that in the manufacturing of aluminium and aluminium alloy products referred to above, we do not intentionally use nor add polybrominated biphenols (PBB) or polybrominated diphenol ethers (PBDE) in any step of the manufacturing process.

A handwritten signature in black ink, appearing to read "G Bevan", with a long horizontal flourish extending to the right.
