West Region Buyer
Copper & Brass Sales
Santa Fe springs, CA

Subject: RoHS Complaint:

Dear Ron:

Ansonia copper & Brass, Inc., is compliant with the new RoHS Directive 2002/95EC. The following information details this compliance:

Lead (Pb)

Lead content <4% (all alloys)

Mercury (Hg)

Mercury is not contained in any of the alloys produced by Ansonia Copper & Brass

Cadmium (Cd)

No greater than 100 ppm (.01%)

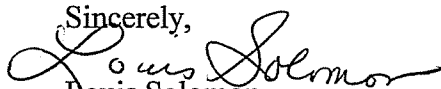

Hexavalent Chromium

Hexavalent chromium is not present in our alloy system. Chromium in our alloy system is present in "metallic form". Chromium to create this alloy is in electrolytic, metallic form.

Polybrominated biphenyls (PBB): Polybrominated diphenyl ethers (PBDE)

These substances are not used or contained in any of the ACB metals.

Sincerely,

Louis Solomon
Technical Director
