Certificate of Compliance

We confirm that all products manufactured by Maurice LECO company are according to the EU Directive 2002/95/EC, RoHS as of the 1st July 2006 with the comments as follows :

1) lead in our alloys

Some of our alloys contain lead for the machining of the material but the weight percentage in any case does not exceed the maximum authorized by the RoHS directive i.e. 4 % max.

2) Dangerous substances aimed by the RoHS directive

The mercury, the hexavalent chromium and cadmium do not pertain to our additional elements. They can possibly be present in the form of traces.
Our products do not contain any PBB or PBDE.

3) Alloys supplied by LEGO to today's date

All the products we supply meet these criteria.

Best regards

Philippe TURENNE
Director QSE
