Copper & Brass Sales
P.O. Box 5116
Southfield, MI 48086

Re: RoHS European Directive 2002/95/EC

Dear Customer:

Sierra Aluminum Company provides Copper & Brass Sales with aluminum extrusions manufactured from a variety of alloys in the 6000 series family (Sierra Aluminum Company does not provide 6262). Each alloy meets its respective Aluminum Association specification with regard to chemistry. None of the alloys Sierra Aluminum Company uses in the manufacture of these extrusions requires the addition of any of the six listed restricted substances and Sierra Aluminum Company does not intentionally add them nor has it ever added them.

This letter applies only to aluminum extrusions that have not been subjected to any finishing operation including coating or plating.

If you have any questions, please contact me at (951) 781-7800.

Sincerely,

Shayne Seever
Corporate Development Manager
