Mr. Seebalac,

All Taber Extrusions, LP alloys supplied to Copper and Brass Sales are in compliance to the following list of hazardous substance limits per European Union Directive 2002/95/EC (i.e., RoHS):

1. Lead (concentration maximum 1000 ppm)
2. Mercury (concentration maximum 1000 ppm)
3. Cadmium (concentration maximum 100 ppm)
4. Hexavalent Chromium (concentration maximum 1000 ppm)
5. Polybrominated biphenyls PBB (concentration maximum 1000 ppm)
6. Polybrominated diphenyl ethers PBDE (concentration maximum 1000 ppm )

Feel free to contact me for further discussion or if have any questions or concerns.

Sincerely,

Clint Hawkins  
Plant Engineer
